# SCIENCE IN ACTION

**AUG 20- NOV 14**

Three month science festival starting from August 20 the death anniversary of Dr.Narendra Dhabolkkar upto November 14th the Birth day of Jawaharlal Nehru.

- 1 Join Science Chain
- 2 Ask.Luca.co.in
- 3 Let's do science
- 4 Earth, the infinite book
- 5 Science for survival
- 6 Listen to science: Podcast series
- 7 Science books
- 8 Expose Pseudo science
- 9 Science in action for Covid 19

#ScienceInAction

- KSSP and its digital platform LUCA ([www.luca.co.in](http://www.luca.co.in)) are organising a three month science festival starting from August 20 the death anniversary of Dr.Narendra Dhabolkar upto November 14th the Birth day of Jawaharlal Nehru.
- This three months will witness a series of activities which hopes to create in society a new enthusiasm to rediscover the method of science and also to rethink about scientific temper in the advancement of a country.
- The activities are closely linked to the science of climate change and its impact on human life. It will also try to expose pseudo science and will also ask for better share of resources in scientific research..
- We request you to join this ambitious campaign by writing short articles, book reviews, puzzles or any other suitable activity and send link to LUCA so that it can be published by LUCA
- The campaign starts on August 20 with science writing. So please start writing short pieces on science and post with hashtag [#ScienceInAction](#), [#JoinScienceChain](#)

Sincerely waiting for your confirmation  
*President KSSP*  
*General Secretary KSSP*  
*Editor LUCA*

**SCIENCE  
 IN ACTION**

# ScienceInAction

Following are the activities planned as part of the festival.

**Join Science chain** - Write about science almost everyday in any media platform including social media like facebook. The writings on science will be done by people from all spheres of life apart from scientists, popular science writers etc.

**[Ask.Luca.co.in](http://Ask.Luca.co.in)** - Anybody can ask questions to LUCA on any aspect of scientific enquiry.

**Let's do science** - This includes projects for school and college students which can be submitted to Luca and awards will be given to the best projects

**Science puzzles and their solution**

**Earth, the infinite book:** activities on nature watch

**Listen to science:** Podcast series on science

**Science for survival:** The science of climate change and identification of local problems that are linked to climate change

**Science books:** Introducing science books for popular reading

**Expose Pseudo science:** identifying pseudo science in media

**Science in action for Covid 19**

**SCIENCE  
IN ACTION**
